

colour printer

# Affordable power for the busiest office

# Phaser™ 8560

## Colour Printer

Fast, affordable and incredibly easy to use, the Xerox Phaser 8560 colour printer gives busy workgroups a bolder, brighter choice for performance colour printing.

*Easier to use than colour lasers or inkjets, solid ink delivers high performance, a very low cost of ownership and outstanding print quality.*

### A colour printer that meets the challenge

**The Phaser 8560 printer delivers fast performance and more features for less.**

- Pick up the pace with a first-page-out print time as fast as 5 seconds. Both black and white and colour print at up to 30 ppm.
- A 600 MHz processor and 256 MB of memory (upgradeable to 1 GB) provide the power you need for the most intense projects.
- Put off reloading paper, or swapping one size for another, with a combined paper-tray capacity of 625 sheets – a huge stack of paper for a device that sits on a desktop. Add third and fourth trays to increase capacity to 1,675 sheets.
- Handy productivity printing tools are standard, not expensive add-ons: job accounting, booklet printing, image smoothing and many more.
- Automatic two-sided printing saves time and reduces paper costs.

### Outstanding colour

**The Phaser 8560 printer gives you precise details and rich, vibrant colours.**

- Count on superior output on everything from cover stock to recycled paper. Confidently handle colour projects in-house and reduce costs and increase efficiency.
- True Adobe® PostScript® 3™ and automatic colour-enhancement tools ensure that colour-intensive documents print reliably and accurately.
- Produce fast, versatile prints for everyday jobs. When you really want to impress, switch to 2400 FinePoint™ print resolution mode.
- Nothing else on the market offers more consistent, vivid colour. The last page of a large print job looks as good as the first.

*Go ahead, get creative. Print on business card stock, postcards, labels, transparencies and more. You can expect the same brilliant output no matter what the media.*

# A colourful choice

## No-fuss productivity

**A simple, cartridge-free design and a host of helpful features make these devices easy to set up, operate and share.**

- Streamlined, automated driver installation gets your device up and running in minutes.
- Replenishing ink is as easy as reloading a stapler. There's no mess to clean up and no bulky boxes to store.
- PrintingScout™ technology monitors your print projects. If a potential issue arises, a handy pop-up alert suggests a remedy.
- Manage, configure and monitor print jobs directly from your computer thanks to the CentreWare® IS Embedded Web Server.
- Built-in security tools (standard on 8560DX) keep your data safe. Secure Print holds hard-copy output until a PIN is entered, and Hard Drive Overwrite "shreds" data after every job or on request.

## Superior design and ease of use

*Large paper trays let you print more without interruption.*

- 1 100-sheet Tray 1 for a wide range of custom media and sizes
- 2 Generous 525-sheet Tray 2
- 3 Add one or two 525-sheet trays
- 4 for a total capacity of 1,675 sheets

*Solid ink is earth-friendly.  
It generates 1/40th the waste  
of a typical colour laser device.*

**Device Management**

Xerox® CentreWare® Printer Management for Microsoft, Novell and UNIX, Xerox CentreWare® IS Embedded Web Server, CentreWare Web, Xerox NDPS Gateway, Usage Analysis Tool, Configuration card, PrintingScout™, MailinX email alerts, PhaserSMART®

**Print Drivers**

Windows® 2000/XP/2003 Server, Vista, Mac OS® 9.x/X version 10.2 and higher, Novell NetWare® 5.x/6.5 (NDPS only), UNIX/Linux (see web), Xerox Walk-Up® Printer Drivers

**Security**

802.1x protocol\* (EAP-MD5, EAP-TLS, EAP-PEAP0-MSCHAPv2)

**Media Handling**

Tray 1: 60 – 220 gsm;  
89 x 127 mm to 216 x 356 mm  
Trays 2: 60 – 120 gsm;  
140 x 216 mm to 216 x 356 mm

Media types: transparencies, envelopes, labels, glossy paper, custom-size paper

**Operating Environment**

Temperature: Nonoperating: -30° to 60° C;  
Operating: 10° to 32° C  
Relative Humidity: Nonoperating: 10% to 95%; Operating: 10% to 80%  
Sound power levels:  
Operating: 54 dBA, Standby: 33 dBA

**Electrical**

Power: 110 – 240 V, 50 – 60 Hz  
Power consumption: Average: 230 W /

Max: 1500 W; ENERGY STAR® qualified (S configuration)

**Dimensions (WxDxH)**

406 x 533.4 x 368 mm; Weight: 28 kg.  
Additional feeder: 135 mm; Weight: 7.3 kg.

**Certifications**

Certified to UL 60950-1/CSA 60950-1-03 1st Edition, FCC Part 15 Class A, Low Voltage Directive 73/23/EEC, EN 60950-1 EMC Directive 89/336/EE3, GOST EN55022 Class A, EN 55024, ROHS Directive 2002/95/EC
